

Drop Thumbing Exercises

Begin with this 'single note brush' preparatory exercise

-Using the same right hand technique, with the same "gap" between your picking finger and thumb, play the following exercises. Make sure the thumb is moving into position at rest against it's designated string at the same time (not after) the finger nail strikes it's string.

Ex.1

Ex.2

Ex.3

-Now try mixing the drop thumb technique with the single note brush. Focus on shortening and then widening the gap between the picking finger and thumb. Make sure the finger and thumb come into their respective strings at the same time!

Ex.4

-Try these advanced exercises only after mastering the exercises above!

Ex.5

Ex.6
